

## FREND™ System

FAST

EASY TO USE

ACCURATE

# TSH

Rapid quantitative assay  
for Thyroid Stimulating Hormone

- Improve patient care
- Increase patient satisfaction
- Increase practice efficiency
- Increase practice profitability

# FREND™ System

Accurate, automated testing procedure – simple 3-step operation  
No need to batch your samples – run when you are ready

- Controls: Minimum once a month two level liquid controls
- Electronic code chip calibration – no need to run liquid
- Daily electronic system QC control – takes only 1.5 minutes
- Stores 500 Test results

## Test procedure

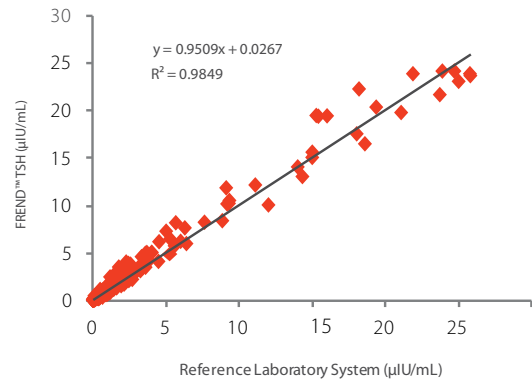

# FREND™ TSH

## Specification

Analytical measurement range	0.06 ~ 25 mIU/L
Sample type	Plasma or Serum
Sample volume	35 µL
Limit of detection	0.06 mIU/L
Reaction time	Max 4min.
1 Box	25 tests
Storage condition	2°C – 8 °C (35°F - 46°F)

\* The specifications are subject to change without prior notice.

## Correlation graph

The  $R^2$  correlation value of FREND™ TSH is more than 0.98 compared to a leading reference laboratory system.

## Ordering information

FREND™ System	Cat# F10
FREND™ TSH	Cat# FRTS 025
